WHAT WE DO

CSTHire provides a leading range of project spec trucks specifically designed to handle the tough Australian construction and mining environments.

Effectiveness, safety and flexibility of application make the CST range of project specific trucks the best option for your next project.

REACH

We cater for projects covering the country and boast a service network second to none.

With CSTHire you will be tapping into one of Australia's largest privately owned support networks which will keep your project running, on time and on budget.

Ready to work...
Australia wide

FLEET FLEXIBILITY

From one truck to one hundred, CSTHire provides flexible rental options to cater for the needs and ever changing scale of any project or site.

We take the hassle out of fleet management and ensure you receive the best customer service and minimal downtime.

MINING & CONSTRUCTION TRUCK RENTALS

We offer a huge range of different vehicles to hire and if we don't have it we will find it.

Let CSTHire support you in finding the correct vehicles and equipment to meet the requirements of your project and site conditions.

Customer support and satisfaction are our driving priorities, which is why our clients continue to partner with us project after project.
