

CSThire Capability Statement

Company Overview

CSThire, was established in 2016 by directors John Wilton and Nick Barnsdall. With a combined 50 years' experience in vehicle and equipment hire to the construction and private sectors, they lead a small, dedicated and committed team. We are proud to be the 'Go-To' vehicle hire company for our clients.

Our fleet consists of quality, fully maintained and serviced vehicles and trucks. As a service based business we are committed to being responsive to our clients' needs. CSThire strives to be a complete vehicle supplier in one of the most important sectors within Australia.

By listening to our clients and tapping our extensive industry experience we are developing a fleet of project trucks offering clients an efficient and cost-effective project fleet.

Workplace Health & Safety Management

CSThire promotes a zero injury or harm record which has been achieved through being fully committed to:

- Ensuring employees enjoy a safe working environment
- A continuous focus on improving the work environment relating to safety
- Implanting a culture of zero harm in the workplace

This is accomplished by a proactive approach to feedback from employees and contractors alike both internally and externally.

Through vigilance, due diligence and a genuine sense of responsibility, all employees and subcontractors are encouraged to vocalise and document any and all workplace practices that may impact on the wellbeing on themselves and others.

CSThire also prides itself on being an equal opportunity employer and strives to be an employer of choice.

Equipment & Training

All our fleet and consumable products supplied by CSThire meet Australian and International Standards and are fully backed by CSThire and the manufacturers.

We provide product familiarisation training for all our fleet including crane, water, fuel, tilt and service modules.

Our workshop mechanics are fully trained and have a combined 50 + years' worth of experience.

Supply Capabilities

CSThire is constantly growing its fleet and have the capability to supply short term and long-term hires, single vehicle hires through to project fleets requiring over 100 vehicles. We mobilise vehicles throughout Australia and regularly mobilise vehicles to remote locations and sites.
